

Mentor Mastery

2017-2018 Newsletter Issue: 1

Q: What is a Stay Safe Mentor?

A: A real Life 'Super Hero' on duty at school!

Welcome to our new Mentor Mastery Newsletter,

We at team Stay Safe! have had an extremely positive start to the 2017-2018 academic year. Running an busy and productive National Anti-bullying Week Campaign, including a new Anti-bullying Video (currently receiving over 6000 views on You-Tube). We have worked with lots of schools across the South-West including Wiltshire & Gloucestershire, run workshops and assemblies for hundreds of children, and shared tons of advice through parent talks and forums. Plus on top of that, we have helped lots of new schools set up Stay Safe Mentors schemes to run within schools and trained up lots of new Super Star Stay Safe Mentors. As we always say to schools, we at Stay Safe! Workshops are all about building long term relationships with schools so we can provide ongoing help, advice and support to both schools, pupils and their parents. There is no better way to do this than having trained Stay Safe! Mentors doing amazing work and sending back termly reports on how they are getting on and also to share their fantastic work and ideas of spreading help and positivity throughout their schools. These newsletters are our way of building our Stay Safe Mentor community while at the same time sharing their fantastic work with us all!

Thanks for the continued support!

Mentor Feedback

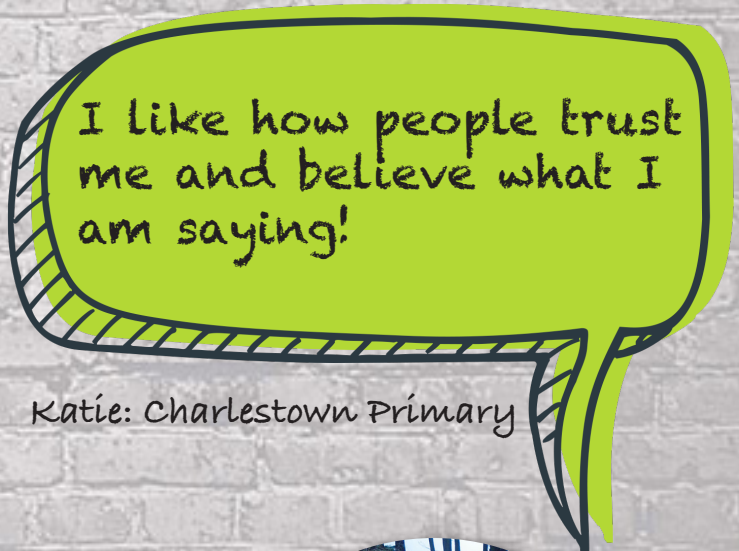

Issue: 1

Lets hear what the Stay Safe! Mentors are saying about their role and see them in action.

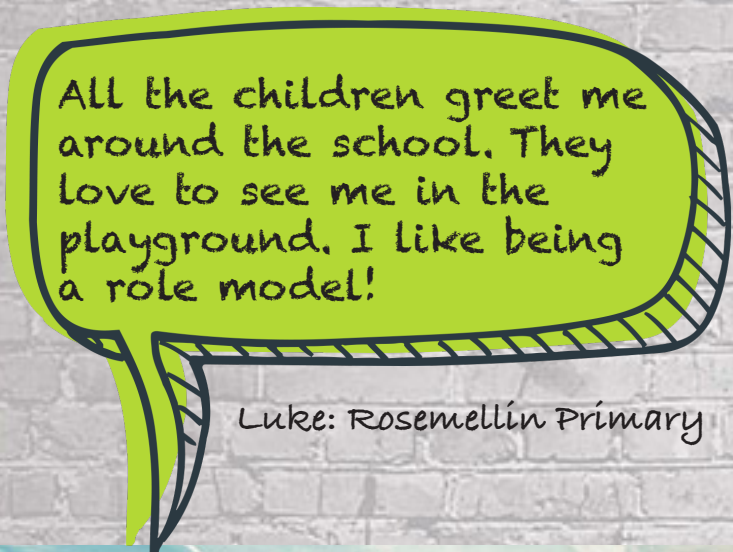

Always here to listen.

I like how people trust me and believe what I am saying!

Katie: Charlestown Primary

All the children greet me around the school. They love to see me in the playground. I like being a role model!

Luke: Rosemellin Primary

You will always have a friend nearby!

What I like about being a Stay Safe! Mentor!

Mentor Feedback

Issue: 1

I like that when I'm in the playground, everyone gets to play and no-one is left out!

Liam: St Dennis Academy

Loving life!

I like playing with the younger years because they respect me and show great friendship to me when their playing. I like doing activities with the little ones so the have something to do and if they have a problem they can tell us if they want to.

Abigail: Rosemellin Primary

Stay Safe! Mentors to the rescue

Success Stories

One day in the playground, I invited a young girl (who had no one to play with) to play Basketball. As the game went on more and more children came and joined in. This made me very happy and everyone loved it!

Aimee: Rosemellin Primary

There were two boys playing and a girl kept following them and calling them names. So I asked the girl if she would like to play hide and seek with me, she said yes. Then I got the boys to join in and they all became friends.

Seth: St. Dennis Academy

Game Ideas Rattle Snake!

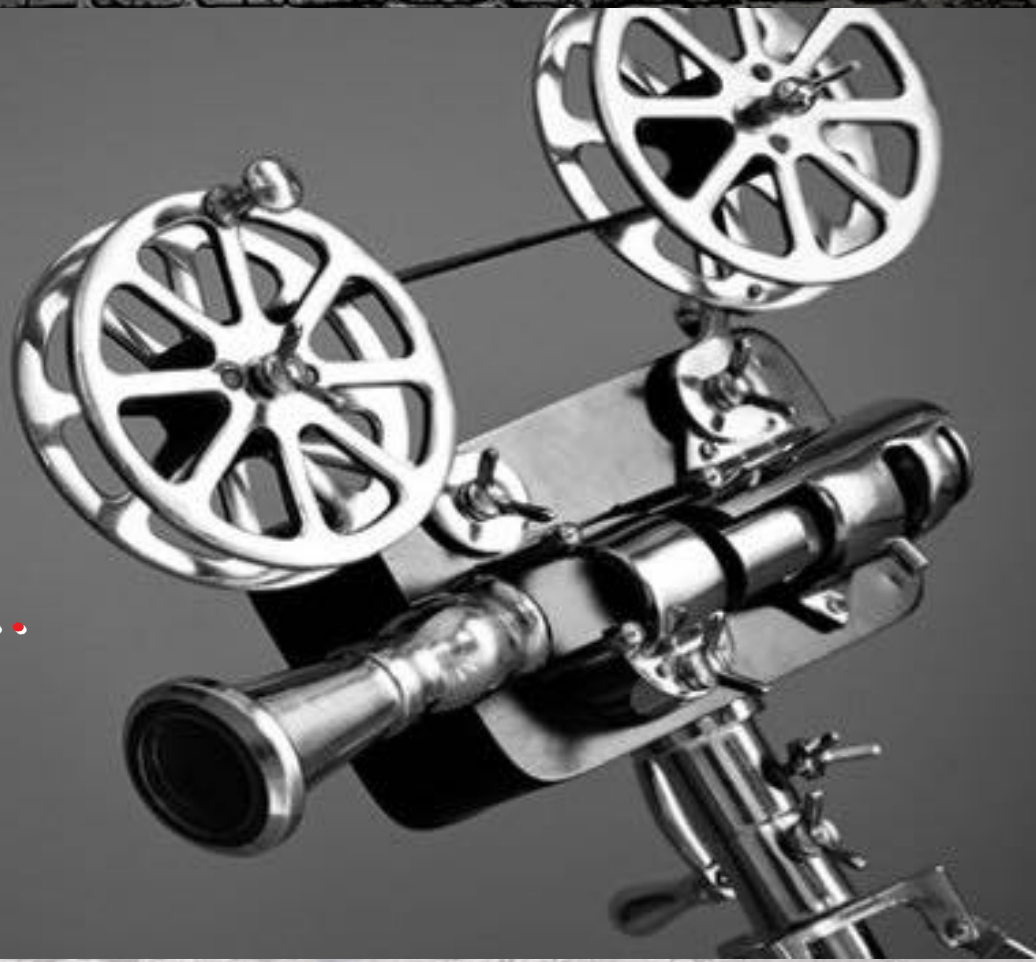

In this wacky group game, participants hold hands in a circle and work together to move a hula hoop around the group—without breaking the circle or letting the hula hoop touch the ground. Not only is this game a lot of fun, but it also builds group cooperation and teamwork and puts your flexibility, agility, and balance to the test! Kids will have a lot of fun twisting and flexing their bodies to get through the hoop and laugh in delight as the adults struggle to do the same! Since Rattlesnake Relay requires several participants, this is a great game to play in the playground with all ages.

Above: The Mentors of Tywardreath Primary and Niki from Stay Safe, showing you how it's done!

Stay Safe! Mentors in Action.

Last year we made a short video to help promote the hard work and positivity of our amazing Stay Safe! Mentors.

This video is about our Stay Safe! Mentors programme. Training pupils up to be positive, role-models within your school.

Please look us up on you-tube to view this and lots of other videos

Join Our Team!

Issue: 1

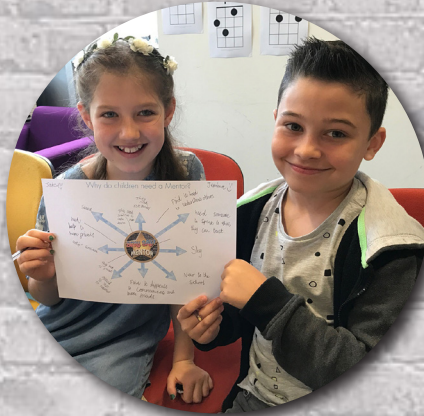

The playground can be a daunting and scary place for many children.

Our Mentor programmes aim to equip a small selected group of children within the school, with the skills to assist and help children that may feel vulnerable and alone in the playground.

As well as being able to spot signs of 'Bullying' our mentors will be there to act as a support network for children that may from time to time encounter various issues and problems that may arise in this environment. They will also promote equality in the playground by organising group games to include and encourage everyone to play and interact together.

To find out more contact us on: info@staysafeworkshops.org.uk
or visit our website: www.staysafeworkshops.org.uk

We're waiting
for you!

We aim is to give children the opportunity to learn a wide range of mental and physical skills to keep them safe in a supervision free environment.

We provide a range of fun, interactive and very educational workshops that equip our kids with vital life skills, educating and protecting them from 'Bullying' keeping them safe while exploring the 'Online World' and also how to 'Stay Safe!' when out and about on their own (far more than just 'Stranger Danger').

Our workshops will reassure parents and give children the confidence and knowledge to always "STAY SAFE!"

Anti-Bullying

These workshops not only help children understand more about bullying and how to get the correct help, but also give them the skills and confidence to deal with face to face bully interaction and to ultimately become 'Bullyproof'.

Stay Safe! Mentors

Our school mentor programme helps to promote equality and friendships across the school. Pupils learn how to be great role-models to others while also giving individuals a ground level option for ones that need someone to turn too.

E-Safe!

This workshop has been designed to help children who are starting to explore the digital world. Whether its through games, social media, using mobile phones or just doing their homework. This workshop will help keep them safe and also guide them into making the correct choices throughout their digital lives.

Stranger Awareness

Far beyond Stranger Danger! These workshops prepare and educate young people on staying safe while unsupervised. Whether is out and about with friends, walking to school alone or interacting with others online. Giving both children and guardians the confidence that they can always 'Stay Safe!'.
